5. Selection process

The selection process shall be conducted using the system of public competition, and shall consist of three phases.

Should there be ties in the qualification of the candidates, persons with some degree of disability shall be afforded preference. Persons whose degree of disability is at least 33% who aspire to participate in the public competition system and who request adaptation of the time and/or means available must furnish an Expert Opinion issued by the Evaluation Body which certified the degree of disability.

The selection process shall commence on the day after the deadline for applications, and its duration, for each phase and in total, shall be as stated in Annex II.

a) **Phase 1: Evaluation of compliance by candidates with the minimum requirements**

The Selection Committee will examine the applications received to determine whether they comply with the minimum requirements established (Annex II D. PARTICIPATION REQUIREMENTS) and necessary to apply for the position, and will do so using the information in the CV and the documentation accrediting those requirements.

In this phase, it is necessary to supply the documentation accrediting all the merits claimed.

Once evaluation of the requirements for all candidates has been completed, and within the period stated for this phase, the Selection Committee will formulate a Provisional list of admitted and excluded candidates, stating which are to continue to the next phase, and the requirements that were not met for the cases of those excluded.

As stated in section I hereof, this list will be published at the CENIEH employment portal, and candidates will be able to avail of five working days counted from the day after publication, to submit any relevant claims or corrections.

Once the period of 5 working days has elapsed, the Definitive list of admitted and excluded candidates will be published.

b) **Phase 2: Examination phase**

Together with the publication of the list of admitted and excluded candidates, the arrangements for the place, date and time for the examinations of this phase shall be sent to admitted candidates by email or regular mail. This will consist of two in-person examinations, one of practical exercises on the topic stated in Annex II, and an English test. This phase shall be eliminatory.

Once the eliminatory examination has taken place, the Selection Committee shall formalize a Provisional list with the scores obtained by the candidates, stating which will continue in the process for the competitive merits phase. A period of five working days, counted from the day after publication, shall be opened to submit any relevant claims or corrections.

Once the period of 5 working days has elapsed, the Definitive list of admitted and excluded candidates will be published.

The result of this phase shall count for 60% of the total score.

c) **Phase 3: Competitive merits phase**

Candidates who have passed the examination phase shall be assessed on the scale of merits using the documentation provided and a personal interview they will be given advance notice of, which preferably should take place in-person, although other means such as teleconferencing, video chat or similar shall be permitted provided that the evaluation process so allows.

Similarly, and if the Selection Committee should so decide, complementary documentation for evaluation of the merits may be requested. The Selection Committee may also accept other means of accreditation provided that they furnish irrefutable justification of the merits claimed.

The result of this phase shall count for 40% of the total score.

Each member of the Committee shall score each candidate individually, with the candidate's final score being the average of those obtained.

If no candidate achieves the minimum required score, the position will remain vacant.

Once this evaluation has been finished, the Selection Committee shall compile a report signed by all its members, detailing the total and partial scores for each of the sections, with a proposed order of preference for the applicants determined by the results attained.

Given the hiring proposal formulated by the Selection Committee, and within the period specified, CENIEH Management shall formulate the corresponding Resolution designating the candidate who obtained the highest aggregate score, taken as the sum of the scores obtained in the examination and competitive merits phases, and this person shall be proposed to occupy the position, with the order of preference for the remaining candidates.

If the offer is declined, the post shall be offered to the next candidate in the order of preference established.

Once the selection process is finished, all documentation referring to it shall be returned to the Human Resources Department of the Consorcio CENIEH, the body responsible for its custody and control.

Throughout the selection process, all documentation shall be available to candidates in the Human Resources Department, which will also inform each candidate about the development of the process as well as the results obtained. Similarly, any questions or queries about the process should be addressed to this Department.

6. Resolution of the selection process

Once the final hiring resolution has been approved by the Director, it will be published on the CENIEH website and in as many places as deemed appropriate.

Human Resources will contact the selected candidate to obtain the necessary documentation for the formalization of the contract.

A greater number of contracts may not be formalized than positions announced (1).

A candidate with university qualifications obtained abroad, unless they are expressed in ECTS, must also furnish a certified copy of the appropriate ratification of those studies or a copy of the credential accrediting that those studies have been validated, if applicable. If this is not held at the moment of formalization, it is mandatory to obtain it within the first year.

An employment contract of indefinite term will be formalized with the selected candidate, who will have to pass the six-month trial period during which their immediate superior will evaluate the proper performance of their job.

In order for the contract to be valid and effective, the proposed candidate must submit to a medical examination by the CENIEH OHS Service and be declared "fit" to perform the duties of the position.

In the event that the proposed candidate declines, the result of the evaluation of the trial period is unfavorable, or the post otherwise becomes vacant within a maximum period of one year from the Resolution of the Committee, the position may be awarded to the next candidate(s) in the list proposed in the Resolution Act. Similarly, the list of alternates in the Resolution Act may be used for hiring applicants for other research projects in which the profile and requirements demanded are identical to those herein, always provided that there are urgent reasons and the envisaged duration of the project in question is less than that remaining herefor. When the cited list is used to fill posts in research projects other than the present one, it shall be valid for 24 months counted from the publication of the Resolution Act.

7. Data protection

To ensure confidentiality in the publication of the results of the selection process described in section 1, candidates will be identified using their full names and four random digits from their national identity document, foreigner identity number, passport or equivalent document.

The Human Resources Department of the CENIEH will be the body responsible for the custody and control of all information related to the selection process.

According to the regulations on data protection, and in particular, article 5.1.f) of the European General Data Protection Regulation 2016/679 ("GDPR"), you are hereby informed that processing the data furnished in applications to this call is required pursuant to the legal obligations incumbent upon the Consorcio CENIEH, and the data will

be incorporated into the “Human Resources” processing activity for the purposes of managing staff selection processes by public competition. The legal grounds for the processing of their data shall be the execution of a contract or precontractual measures. The data provided shall be retained for the period necessary to comply with the legal obligations. Data shall not be transferred to third parties except where required by law, and you may lodge any complaint with the Agencia Española de Protección de Datos (www.agpd.es).

Data will not be transferred to third parties except where required or authorized by law.

For the purposes of communication and other incidents, as well as to exercise their rights to access, rectification or erasure, restriction of processing, portability and/or opposition, the data subject can contact the data controller: Consorcio CENIEH (Delegado de Protección de Datos), Paseo Sierra de Atapuerca 3, 09002 Burgos, Spain, or protecciondedatos@cenieh.es
